UI	IPv4	Censys Search 1.0 IPv4 Data	Community Censys Pro Censys Enterprise Research	https://censys.io/ipv4	11/30/2021	Censys Search 2.0	https://search.censys.io/search?resource=hosts	Yes	Yes	No	Search 2.0 Official Launch Announcement Censys Search 2.0 Data Model Search 2.0 Search Language Search 2.0 Reference Guide Translate Queries to Search 2.0 All Available Search Attribute Fields for the Host Dataset		After Nov 30, if you visit censys.io/ipv4/ you land on our marketing site. Any saved or bookmarked queries will need to be translated to the Search 2.0 syntax.
UI	Domains	Censys Search 1.0 Domains Data	Community Censys Pro Censys Enterprise Research	https://censys.io/domains	11/30/2021	n/a	n/a	n/a	n/a	n/a	n/a	We are discontinuing this service. We recommend that users consider Crawler.Ninja as an alternative dataset. Name based scan information will be available to Premium Customers in the host datasets starting in Q4	
UI	Certificate	Censys Search 1.0 Certificate Data	Community Censys Pro Censys Enterprise Research	https://censys.io/certificates	11/30/2021	Censys Search 2.0	https://search.censys.io/certificates	No	No	No		Starting on September 1, 2021, for Certificates that have been expired for more than a year, you will have the Lite Cert fields available for search criteria. Note: you will still be able to view the full certificate.	After Nov 30, if you visit censys.io/certificates you land on our marketing site. Any saved or bookmarked queries will need to be translated to the Search 2.0 syntax.
API	IPv4	Censys Search 1.0 Search Endpoint - IPv4	Community Censys Pro Censys Enterprise Research	POST https://censys.io/api/v1/search/ipv4	11/30/2021	Censys Search 2.0 Search Endpoint - Hosts	GET https://search.censys.io/api/v2/hosts/search	Yes	Yes	Yes	Search 2.0 Official Launch Announcement Censys Search 2.0 Data Model Search 2.0 Search Language Search 2.0 Reference Guide Translate Queries to Search 2.0 All Available Search Attribute Fields for the Host Dataset **Three Changes You Need to Make for Search 2.0 API	Did you notice? We made this API super fast. To keep it fast and light, we removed the ability to specify fields to be returned with the search. But, you can use the new view endpoint to enrich your returned search results.	After Nov 30, 2021, if you POST to https://censys.io/api/v1/search/ipv4 , you will receive a 404
API	Certificate	Censys Search 1.0 Search Endpoint - Certificates	Community Censys Pro Censys Enterprise Research	POST https://censys.io/api/v1/search/certificates	9/1/2021	Censys Search 2.0	POST https://search.censys.io/api/v1/search/certificates	No	No	No		Two things to do here: 1. Update the server url to search.censys.io 2. Review Lite Cert Changes	Upon Sep 1, 2021 we will start passing the Lite Certificate Data through the POST https://censys.io/api/v1/search/certificates endpoint. If you do nothing, you will not encounter a service disruption, but you will start to see the change in available search fields. Lite Certs don't have ct or parsed.extension info available as search values. You will still be able to view the full certificate. After Nov 30, 2021, if you POST to https://censys.io/api/v1/search/certificates , you will receive a 404
